PREFACE TO THE SIXTEENTH EDITION, 1932.

. . . . . .

During the last twenty years I have been lecturing to the public on the subject of so-called "Patent Medicines." Sixteen years out of the twenty I have lectured in Hyde Park, London. I was greatly helped when in the year 1909 the British Medical Association published "Secret Remedies, what they cost and what they contain." because then I had the highest authority in the World to corroborate what I had so long been expounding. Then in the year 1912 the British Medical Association published "More Secret Remedies, what they cost and what they contain," another great help. Other analyses and authorities have appeared since. My readers are in the happy position on becoming in possession of this booklet of being able to read the gist of all the above-mentioned analyses and references. These are presented to you as well as PARTONS LIMITED own analyses in a simple consise form. The well known and largely advertised remedies for ailments common to the present generation have been analysed by PARTONS LIMITED. Those of outstanding merit are tabulated in the booklet herewith. Our long and varied experience has convinced us that they are the best and safest to be had. Our only complaint is the extortionate prices charged for some of them. But when one thinks of the costly advertisement and Government stamps which are imperative to their upkeep one ceases to wonder at their price. PARTONS LIMITED have undertaken to supply to the public similar remedies at a reasonable price. The correctness and purity of the medicines we guarantee. A trial order will convince the most sceptical. If we make it it is good ! If it is good, we make it ! After years of experience, and after being requested to do so on thousands of occasions, I have at last decided to offer to the public medicines made up to these analyses at a reasonable cost. These I guarantee to be made up under ideal hygienic conditions by a qualified Chemist and member of the Pharmaceutical Society, under my own personal supervision and are to be relied on. No proprietary rights are claimed in any of the preparations mentioned in this book. PLEASE NOTICE — all our preparations are sent on receipt of Postal Order for price quoted in our list. All Postal Orders, Cheques or Money Orders should be crossed and made payable to PARTONS LIMITED. This ensures both the sender and the firm from loss in the post. Please send all orders to our London address : 457a, New Cross Road, S.E.14. This will save time and trouble, as the prescription depots have not the facilities for packing, also they are strictly forbidden to deal with orders by post.

Dear Sir,

Will you please send jar of Prescription Ointment (No. 136), Order for 3/- enclosed. I must say it is a wonderful ointment as my wife has only had one jar and her leg is now nearly healed up after many years of torture, besides spending, I am not telling a lie when I say, £100 on different ointments, bandage, lint, lotions, etc. It makes us feel that we could stop anybody that we see with a bandaged leg and ask them to try. We also thank Mr. Dalman for bringing us your little book along.

I am, yours truly,
A. ALLNUTT.

Breathe your Cold away

Put a drop of Partons Inhalant on your handkerchief. At once it begins to give off a pleasant antiseptic vapour which kills the germs before they can multiply. Breathe this vapour. Always keep Partons Inhalant in your Home

Fly to Partons Inhalant at the first sign of a cold—the "stuffiness" which means that the germs are multiplying. Clear them out of your system before they become dangerous. Use Partons Inhalant and Breathe.
